

AGA RANGEmaster

QUALITY POLICY

AGA Rangemaster Ltd is a business unit of Middleby UK.

AGA Rangemaster designs, develops, manufactures imports and exports whilst distributing kitchen appliances and associated products from its sites in Leamington Spa, Long Eaton and Telford in the UK.

- The Group Environmental, Health and Safety Manager has day-to-day responsibility for AGA Rangemaster Ltd quality issues and ensures this policy is implemented.
- The AGA Rangemaster Environmental, Health and Safety will review this policy annually.

The following policy is employed to ensure the continuing success of the business:

AGA Rangemaster Commitments:

The management of AGA Rangemaster are committed to Business Excellence through:

- Listening to our customers / consumers, both internal and external, satisfying their needs and delivering their expectations.
- Encouraging the active participation, development and involvement of all AGA Rangemaster employees, in the achievement of the business objectives.
- Continually improving our quality management system, processes, services and products, in accordance with the business plan.
- Complying with the requirements of ISO 9001: 2015; ISO 14001: 2015; ISO 45001: 2018 and all relevant product standards, customer or statutory and regulatory requirements.

OBJECTIVES

Key Performance Indicators for each process are identified and established within the AGA Rangemaster Business Plans.

The AGA Rangemaster Executive Team reviews each process against its set Key Performance Indicators monthly.
